

# HT6000

## LLDPE Based Talc Concentrate

### Physical Properties (for informational purposes only)

HT6000 is a pelletized high performance talc reinforcement concentrate.

Property	Target	Minimum	Maximum
Melt Flow, g/10 min	2.00	0.25	4.00
% Talc	60	59	61
Moisture, ppm	-	0	700
Density, g/cm <sup>3</sup>	1.53	1.48	1.58
Bulk Density, lb/ft <sup>3</sup>	60	-	-

### Comments

HT6000 is formulated to improve anti-blocking performance in polyethylene films.

### Regulatory Status

The ingredients in our polyethylene based talc concentrates are approved for use in direct food contact packaging under paragraphs 177.1520, 178.3297 and 178.3297 of Title 21CFR of the Code of Federal Regulations, with no restrictions. This product complies with California Proposition 65 and all applicable CONEG heavy metal restrictions.

### Shipping Containers

HT6000 is available in various package types to accommodate specific needs: Box, Bag, and Bulk
